You are hereby notified to meet at the Town Hall in said Kensington on Tuesday, the ninth day of March, next at 10:00 of the clock in the forenoon, to act upon the following Articles: 1 & 2.

You are hereby notified to meet at the American Legion Hall in said Kensington on Thursday, the eleventh day of March, next at 7:30 p.m. to act upon Article 3 and subsequent articles.

1. To choose all necessary Town Officers for the year ensuing.
2. On Ballot: Petition of Elias P. Collins and others to see if the Town will adopt the adjusted Elderly Exemptions from residential property taxes, as authorized by the 1981 session of the General Court. NOTE: This question will appear on the Official Ballot as follows:

"Shall we adopt the provisions of RSA 72:43-f for the adjusted elderly exemptions from property tax? These statutes provide for the following exemptions, based on assessed value, for qualified taxpayers: for a person 65 years of age up to 75 years, \$10,000; for a person 75 years of age up to 80 years, \$15,000; for a person 80 years of age or older, \$20,000. To qualify, the person must have been a New Hampshire resident for at least 5 years; own the real estate individually or jointly, or if the real estate is owned by his spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of less than \$10,000 or if married, a combined net income of less than \$12,000, and own net assets of \$30,000 or less, excluding the value of the person's residence."

## LIBRARIAN'S REPORT 1981

### Circulation

Adult Fiction	2,529
Adult Non-fiction	1,986
Adult Magazines	683
Reference assistance	195
Miscellaneous	137
Juvenile Fiction	3,952
Juvenile Non-fiction	2,494
Juvenile Magazines	79
Miscellaneous	<u>25</u>
Total	13,070

The library's circulation increased 1,158 over the 1980 circulation total. We are pleased to show an increase in our circulation but that only reflects one phase of our services to the community. We answered the telephone on town related business 245 times. We used the copier to copy non-library material many times each month. We have delivered books to house bound or ill town's people and have directed motorists to find their way in the town. I have even gone back to the library to look up needed information for a student who needed this help before the library re-opened. The library is an information center for the town.

We accessed 416 books during the year into our library collection. 271 of these books were purchased with library funds. 22 were purchased with funds donated by the Friends of the Library, 20 books were bought with funds given by the Samuel Endicott Memorial Fund. 10 National Geographic Books were given in memory of Faith York, 2 books were given in memory of E. Winter Eastman and a book given in memory of Dr. Leon Jacobs. 25 children's books were purchased with funds given by the Kensington School District. We also received many gift books from generous members of the community.

The State Library Bookmobile visits and the Exeter District office closed as of the end of June. This has made it difficult to always give the service to our patrons that we have prided ourselves in giving in the past. This was due to a lack of adequate funding on the state level and the extreme cost of operating the bookmobiles. The libraries in the seacoast area are cooperatively trying to maintain as good service as possible. We are working on a seacoast union catalog which is located in the Lane Memorial Library in Hampton so that we will be able to locate a needed book by one telephone call. The Lane Memorial Library and the Exeter Public Libraries have been most generous in loaning books to us on inter-library loan. The State Library is attempting to get requested books to us despite a greatly reduced staff. Once the four District Office's books are properly housed in Concord, we will be able to go to Concord and select book collections for our libraries but this will take time and travel money. Meanwhile, we will continue to serve you to the best of our capacity and within our library budget.

We continued our summer programs for the children. Weekly movies were held during July and August. A puppet workshop was held in July for the children and at the conclusion they produced a hilarious rendition of "There was an Old Lady Who

Swallowed a Fly." In August a kite making workshop was held with some very attractive kites made from inexpensive materials.

A successful Summer Reading Program was held that concluded with an ice cream party. It was home made ice cream with the kids helping turn the cranks. The ice cream was delicious.

We undertook a complete inventory of our library books this year. We found many books mysteriously missing and we also found many books that had not been properly catalogued. The inventory is finished but we are still doing the necessary recataloguing. It has been a necessary job but a tiring one and I want to thank June Armstrong and Priscilla Prescott for their dedication to the task.

We want to thank all of you who have shared your hobbies, talents and collections so that we could continue with our exhibits. They have been varied and have attracted much attention. We are amazed at how much this community has to offer. Let us know if you want to be an exhibitor.

The library staff wants to thank all of our volunteers. We would find it hard to cope with our school visitations without your help and those of you who come in after school and help us in so very many ways. We did again this year hold a morning coffee for you in an attempt to show in a small way just how grateful we are for your help. This year we paid special honor to Claudia Welch. The Welch family moved out of town.

A used book sale and food sale was held in July. This is always a social occasion as well as a financial help. The food sale is to give the library staff a fund for special expenses that are not provided in the budget.

A community Christmas party was held at the library in December when we decorated our beautiful living spruce tree on the library lawn. We have the Friends and Stanley Underhill to thank for the tree. We also have Stanley to thank for many things on the library grounds.

We wish to thank both board of trustees for their co-operation and help, the Friends for their continued help, the Brownies and Girl Scouts for decoration at various holidays and for any other help we have received. I personally wish to thank the library staff, June Armstrong, Sally Head and Priscilla Prescott for their dedication and hard work and at times for just putting up with me.

Respectfully Submitted,

Lucy Blodgett, Librarian

## EXETER AREA VISITING NURSE ASSOCIATION, INC.

The Exeter Area Visiting Nurse Association, Inc. is a community health service that provides health care to individuals and families in their home, in the office, or in clinics. The care may be to prevent disease, promote, maintain, or restore health, or it may be to minimize the effects of illness or disability.

The Association is a non-profit agency governed by a Board of Directors. This Board is made up of people who are appointed by the selectmen in your town.

Funding for the Association comes from Medicare, Medicaid, patient fees, local taxes, and donations. Town appropriations make the service available to the town.

HOME CARE. Professional nurses give care to the sick and disabled under medical direction, teach and supervise care given by the family and others. Care is family centered and consideration is given to the total needs of the patient and family for health promotion and disease prevention and rehabilitation as well as care and support during the dying process. The service area was divided into districts this year with specific nurses providing care in their district. An answering device has been put into use this year making services more available. A marked increase in weekend visits has become apparent due largely to earlier hospital discharge.

MATERNAL AND CHILD HEALTH. Visits are made to new or expectant mothers to provide information and instruction in the care of themselves and their babies. Well Child Clinics are held two to three times a month and provide the following services: Physical exams by a local physician, immunizations, hearing and vision screening, blood and urine tests, instruction in growth and development. The clinics are for infants and preschool children. This program has been reorganized this year and the number of clinics increased to accommodate increased numbers of eligible children. The Exeter clinics are now held at the VNA office and a new developmental screening has been added. These changes were made to increase cost effectiveness as well as the quality of service.

ADULT HEALTH SCREENING. Clinics are held each month to check blood pressure and provide diet and medication counseling, and general health instruction. The High Blood Pressure Program was expanded during the last half of the year to include the young and middle-age adult population. Diabetes screenings are held through the area, and tuberculosis testing is also done.

FLU CLINICS. 12 Clinics are held each Fall (1 in each town) to immunize hi-risk (65 yrs. and over, or chronic disease) persons against influenza.

THERE IS NO CHARGE FOR ANY CLINIC SERVICE

CONTINUING CARE. An Agency nurse is in the local hospital part of each day to assist in planning, coordinating and arranging for care at home so that a person can move from

hospital to home and continue to receive the required care he/she needs.

10,959 units of service were provided to residents of the service area between January 1, 1981 and December 31, 1981. (Individual town statistics are sent to the selectmen of each town).

The agency works closely with other health and social agencies to ensure the most comprehensive care possible to the residents of the participating towns. The Agency continues to maintain its Medicare and Medicaid certification and is a member of the Community Health Care Association of New Hampshire.

The Association relies upon many valuable volunteers who work at the clinics and in the office in addition to regular staff.

Information may be obtained by calling the Exeter Area Visiting Nurse office, Monday through Friday, 8:00 A.M. to 4:00 P.M. 772-2981 or write to 26 Prospect Ave, Exeter, N. H. 03833.

## REPORT OF THE PLANNING BOARD

During the past calendar year, while a number of subdivisions of land have been approved for house lots, there has been very little actual building done in Kensington. Only six building permits were issued, some of which were for additions to present buildings.

Probably the major development has been the completion of the Town Master Plan after three years of work. It is the only such plan in southeastern New Hampshire created entirely by the volunteer labor of the citizens, although credit should go also to the Southeastern Regional Planning Commission for providing statistics and clerical help.

Pressures on land use are bound to increase when population growth and building activity resume in the future, and the Master Plan together with the soils map completed over a year ago now provide the Planning Board with a guide which will be of immense assistance in framing land use ordinances to ensure that the growth be orderly and consistent with the rural-residential character of the town.

It should be understood that in no way will the Master Plan or any of its provisions acquire the force of law until they have been discussed in public meetings and then voted on by the citizens of the town in the usual way.

We should all be grateful to the many people who worked so hard and so cheerfully to make the Master Plan a reality. The Planning Board certainly is. Copies of the Plan are available for inspection in the Town Library and can be obtained by application to the Town Clerk.

Respectfully submitted,

Richard F. Brinckerhoff, Chairman  
Kensington Planning Board

## REPORT OF THE KENSINGTON RECREATION COMMISSION

The town park was utilized by several people for a variety of occasions. The procedure for requesting use of the park was followed, and users were good about cleaning up after themselves. Vandalism has remained very minimal; the new gate has assisted in deterring traffic from the upper park area.

Electrical power was restored at the beginning of the season, and the parking area was graded and leveled, providing the needed space for many to park. Our king-size picnic tables were well taken care of, used by many, and will be returned to the pavilion from winter storage.

A summer program of recreation was offered again, many participated, and all contributed to maintaining the park.

The Committee thanks all those who contributed their time and energy toward the success of the year's activities, and to the continued support and maintenance of our park.

Respectfully submitted;

Geoffrey E. Coffin  
Recreation Commission

## CHIEF OF POLICE - 1981 ANNUAL REPORT

### PERSONNEL

Four (4) Part Time

POLICE VEHICLE 1980 Plymouth Fury, mileage 32,000 (1/82)

1981 has been the most productive year for the Kensington Police Department.

Working within the resources allocated, a number of improvements were made in the areas of organization, In-Service training, Certification of personnel as Part-Time Police Officers including Weapons Qualification equally as well in reporting and record management.

The continuing growth of the town and the needs of the police department are reflected by activity statistics compiled for 1981. Demand for services showed large increases in nearly all of the important categories.

The tremendous increase in activity burdened personnel heavily when you consider its status of being "Part-Time."

It is readily apparent that we simply did not have the human resources great enough to take the offensive.

This will be our challenge as we face the new year. We simply cannot wait for the crime to come to us, we must place ourselves in a position where we can take the offensive and explore those avenues open to us that will hopefully reduce not only the crime itself but impress upon people that this type of activity is going to result in swift and sure punishment.

In another problem area, that of motor vehicle offenses, there was also a substantial increase in the number of apprehensions.

1980 - Violations 129  
Warnings 33

1981 - Violations 256  
Warnings 337

Some of these were a result of complaints by concerned citizens regarding offenders through neighborhoods, etc.

There will never be a time when we are able to act effectively on every complaint we receive, but the statistics would certainly indicate that we are trying.

Another major concern of the police department was the Drunk Driver. In order to combat this, a Selective Traffic Enforcement approach was undertaken which resulted in a 100% increase in the apprehension of D.W.I. Violators for 1981.

The statistical summation following this report gives a clear indication of the various problems that the department is faced with. E.G... We covered 57 motor vehicle accidents in 1981 which was an increase of 48 accidents from last year. Fortunately, we were able to go the whole year without a motor vehicle fatality.

This picture is not completely black of course...According to crime statistics, Kensington still enjoys a healthy position

in comparison to some other communities. However, it is our goal to bring about continued improvement within our capabilities for the tranquility of the community.

Other problems we face in the coming year need budgetary action. The needs for services requires adequate monies to support those activities such as increased patrol coverage, investigative follow up, judicial processing, maintenance and purchase of needed equipment in order to operate more efficiently.

We are also pleased that a growing number of residents are taking advantage of the Security House Check Program. This is an excellent method of "Crime Prevention" for the property owner as well as for the community.

We ask parents of children who have mini-bikes or dirt bikes to be aware of where their children are using these vehicles. There have been numerous complaints throughout the year regarding the improper use of these vehicles. Particularly the disturbance of neighborhoods by the continuous roar of the engines and of course the damage to property caused by tires continuously stirring up lawns and fields.

In cooperation with the Kensington Volunteer Fire Dept. and the Police Department, radio communications has been improved by means of being allocated a special "Town Frequency" available to all departments. In an "Emergency", this would allow the police, fire and the highway department to communicate without delay in order to expedite those immediate needs for assistance which would minimize any threats to Life Safety.

#### CONCLUSION

We would like to take this opportunity to thank the citizens of Kensington who have assisted and supported the police department. Special thanks to Chief Hubert Schweizer, Jr. and the men and woman of the Kensington Volunteer Fire Department and the "Sparks" for their able assistance during the year, most specifically the newly formed Emergency Medical Services Team, a definite asset to the community.

Finally, we would like to add that the officers of the Kensington Police Department are continuously committed to providing the best possible services within the resources allocated, and we will continue to strive for excellence to meet the needs of the community.

Respectfully Submitted,

Roger R. Levesque, Chief of Police

## REPORT OF THE CONSERVATION COMMISSION

The commission generally met every other month on the third Thursday at 7:30 p.m. at the Chairman's house. Commencing in Feb. 1982, the commission has voted to meet monthly on the third Thursday at 7:30 p.m. at the town hall unless otherwise posted.

Commission members completed work on the "open space, recreation and conservation" portions of the town Master Plan which was to be submitted to the Planning Board in Jan. 1982.

The commission worked actively with the Rockingham Land Trust to plan for the preservation of valuable wetlands such as the Great Meadows. On Feb. 10, 1981, Chairman Gavutis presented a slide talk on the Flora & Fauna of the Great Meadows to a group of interested "Meadows" landowners. The same program was also presented to the Historical Society on May 20, 1981.

George Gavutis, Chairman

RECORD OF THE 1981 SCHOOL DISTRICT MEETING

KENSINGTON, N.H. - MARCH 7, 1981

The Annual School District Meeting was called to order by the Moderator, Thomas Welch, at 7:07 P.M. Reverend Roger Daly opened the meeting with an appropriate prayer, followed by the salute to the Flag. The Moderator read the Warrant and reminded those in attendance that were not registered voters may not legally vote.

ARTICLE 1. To see if the District will vote to authorize the construction of an addition to the Kensington Elementary School including furnishings, equipment, architectural and other fees, site development and any other items incidental to and necessary for such construction, on land presently owned by the Kensington School District, and further to authorize the Kensington School Board to raise a sum not to exceed Three Hundred Twelve Thousand (\$312,000) by issue and sale of bonds or notes of the School District in accordance with the provisions of Chapter 33 of the Revised Statutes Annotated as amended and to apply toward the cost of the project all grants and interest received in addition to said sum. The time and place of payment of Principal and interest, the fixing of the rate of interest, provisions for the sale of notes and/or bonds and all other matters in connection therewith, to be left to the discretion of the School Board.

Paula Singer moved to adopt this Article. Harold Bodwell III seconded. Paula Singer then gave an up to date report on purchasing the land, the committees decision, and the teachers helpful suggestions. A slide presentation was given, showing the needs and space that is utilized at the school. Activities, special help classes, and exercise programs are often held in the hall, because of limited space. Paula Singer clarified the rumors on the use of the school, that it is the policy of the School Board that no one will be told that they can not use the school for town functions. James Rosencrantz questioned the cost of maintaining the addition. It would be half again the cost that is paid now. The Janitorial fee had not been figured.

Clemons Streck stated, if you were to vote on your house, you would want to know everything exact, can't see building a twenty foot (20') high ceiling for phys-ed once a week. There are a lot of factors you should know.

Mr. Streck could not justify the addition.

Paul O'Brien felt that the State would not subsidize a hot lunch program. Paul Kimbal asked about this years head count. Mrs. Singer said we have one hundred fifty two (152) students. Jane Stemple spoke that the State mandates that every school provide a hot lunch program. And we have to comply. If the addition does not pass, we still have to comply by means of satelliting the food. Which is bringing in food by van. And would make things very congested. The president pledged not to cut the subsidy of lunch programs. Clemons Streck didn't believe the lunch program would be self-supporting. Seventeen Thousand (\$17,000) and thirty (30%) percent is the issue, and the Three Hundred Twelve Thousand (\$312,000). Jane Stemple stated, when it comes to who to believe, she had no reason not to believe the experts from the State. There are some towns with lunch programs that are grossly mismanaged.

Mark Brewer felt that we all should thank those that put in time and effort on the addition and that they also would be paying taxes. If we wait too long the cost would be even greater. Judy Pease commented that we all heard from the educators, every person seems to depend on the Legion. The town should provide space for the town. John York called for the question. At seven forty one (7:41) p.m., polls were open to vote by yes or no ballot. Polls closed at eight forty one (8:41) p.m. Three Hundred Forty Three (343) ballots were cast. The vote was negative. yes (138) no (205)

ARTICLE 2. To see if the District will vote to raise and appropriate the sum of Two Thousand Five Hundred Dollars (\$2,500) for the purpose of energy conservation measures at the Kensington Elementary School.

Paula Singer moved to adopt the Article. Harold Bodwell III seconded. Robert Wadleigh asked for an explanation. Paula Singer reported it was to close off North windows, insulate water heater and controlled thermostats. The vote was affirmative.

ARTICLE 3. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agents of the School District.

Hal Bodwell moved that it remain the same. Paula Singer seconded. The vote was affirmative.

ARTICLE 4. To hear the reports of Agents, Auditors, Committees or officers heretofore chosen and pass any vote relative thereto.

Paula Singer thanked the members of the building committee and all of the people who held the coffee's.

ARTICLE 5. To see if the District will vote to authorize the School Board to make application for, accept, and expend on behalf of the School District, all gifts, advances, grants in aid, revenue sharing funds or any other funds for educational purposes as may now or hereafter be available or forthcoming from the U. S. Government, the State of New Hampshire or any of it's municipalities or any other state, local or federal agency.

Paula Singer moved to adopt the Article. Hal Bodwell seconded. No discussion. The vote was affirmative.

ARTICLE 6. To see what sum of money the School District will vote to raise and appropriate for the support of schools, for the payment of salaries for School District officials and agents and for the statutory obligations of the District.

Paula Singer moved to raise and adopt the sum of Five Hundred Sixty Eight Thousand, Eight Hundred Dollars (\$568,800.00) for the year 1981-1982. Hal Bodwell seconded. James Rosencrantz questioned the increase in speech and health programs. Paula Singer explained that we share with other towns on speech. Paul O'Brien asked if there had been other plans looked into for less money than Blue Cross - Blue Shield. Mr. Richard Short explained that yes, they are looking into other arrangements, hopefully better. Seavie Rideout questioned the high cost for one students out of State tuition and why isn't he educated here. Mr. Short explained that the student had to have that particular education and we are ordered by the State Courts to pay for it. Seavie Rideout asked if we had to pay the full amount for insurance. Mr. Short commented that yes, we have to pay 100%. The vote was affirmative.

ARTICLE 7. To choose Agents and/or Committees in relation to any subject embraced by this Warrant.

John York moved to indefinitely postpone this Article. Several seconded. Vote was affirmative.

ARTICLE 8. To transact any other business that may legally come before this meeting.

Thomas Welch moved to adjourn. George Martin seconded.

The Moderator, Thomas Welch, declared the School District Meeting adjourned, at 9:18 P.M.

## Report of the Superintendent of Schools

It is my pleasure once again to address the citizens of Kensington. I am very pleased with the strong commitment to quality education in Kensington. Parents, citizens, teachers, administration and the school board have demonstrated many times through both moral and financial support that quality education is a priority. Student achievement continues to show high scores. We have two types of testing programs. One is a test given as part of the State Accountability program. We are now able to compare our school with others in the Seacoast Area. In all subject areas tested we score as high and in most cases higher than those around us. On the national tests taken recently at grades 2, 4 and 6 our towns showed scores again in the top quarter of schools in the country.

Special Education programs as a result of State and Federal Statutory requirements continue to cost the district more money in each budget year. In 82-83 a larger portion of tax dollars will go to educating the handicapped. This is due to three main reasons, the federal money has been reduced, the new state special education law puts a larger portion of the financial burden on the districts and thirdly, there appears to be more children requiring services. We will continue to investigate ways of delivering of special education services at lower costs, but I wish to alert you through this report that special education services are expensive and we are somewhat limited by law in reducing these costs.

This year three areas are under review. These are our grade 1 to 8 "level" system of presenting the basic subject areas, the reading system, and the method of reporting to parents, namely the "report card". At the same time a study of the high school curriculum has gotten underway. This committee will be reviewing what is taught at the secondary level and making new recommendations for proposed curriculum changes. The report is not due until next November 1982.

Last year at this time the elementary schools were undergoing an evaluation. This had previously occurred in the Junior and Senior High School. I am pleased to tell you the Kensington Elementary School received a very high rating and joins a select group of New Hampshire elementary schools to fall in this category.

Frank Scala, as principal, has written a report which I would like to quote here:

"The Kensington Elementary School once again continues to illustrate fine quality education. Standardized testing places our students in the high national percentiles. Parents and staff support

our programs and the results are evident.

Staff changes included in the leaving of Sue Ryan replaced by Mr. David Wenigmann in Grade 5. Miss Bernier replaced Mrs. Herrold as the speech and language therapist and Mrs. Liddy replaced Mrs. Wool as the music teacher.

The one major curriculum area changed was science. We have recently implemented a new science program. It appears to be stimulating and exciting.

Within the past year the school underwent Minimum Standards Evaluation by the State Department of Education. The only recommendations made to the school from the evaluation was the need for a school-based library and the need of a guidance counselor. All other areas were satisfactory and commendable.

As new interests and needs continue to emerge in education, the staff will meet those needs head on and continue to improve and enrich your children's education. We trust your support will also be to meet that goal."

As Superintendent of Schools I should like to conclude this report by pledging to all of you my continued interest and efforts on behalf of this school.

Organizations are not always perfect. The schools are no exception. What we continually need to do is assess our school programs including the achievement of students and work upon those weaknesses that hamper student progress and learning. As educators, I do believe we do address the issues that effect classroom learning and school environment. To do less is to be less professional than we can be. The fact remains in this community the tax dollar has basically been utilized well to produce student achievement and success. More emphasis upon teacher evaluation, effective schools, in-depth in-service programs for the staff, and greater utilization of test results will occupy much of the future planning.
